

When O Says Its Name

Here's a time when O says its name when it is written all by itself. Read these examples:

old	bold	fold	gold
hold	mold	sold	told
bolt	colt	host	most

The lime is old and moldy.

Take hold of his hand.

I had the most fun at the beach.

Fold it and put it here.

It is windy and cold inside!

Hosting him, I am told, is bold.

He mines for gold here.

The colt has fun running fast.
