Fractions in Words

Color in each shape to match the fraction in word form. Then write the fraction in number form to represent the colored part.

One half  \( \frac{1}{2} \)

One third  \( \frac{1}{3} \)

One fourth  \( \frac{1}{4} \)

Two thirds  \( \frac{2}{3} \)

Three sixths  \( \frac{3}{6} \)

Five ninths  \( \frac{5}{9} \)

Two sixths  \( \frac{2}{6} \)

Three eighths  \( \frac{3}{8} \)

Six tenths  \( \frac{6}{10} \)

Three fifths  \( \frac{3}{5} \)

Four sixths  \( \frac{4}{6} \)
