Analyzing Graphs Assignment
Use the line graph to answer each question.

1. In which year did most students participate in the science fair?
2. How many students participated in 2007?
3. Did the number of students increase or decrease from 2006 to 2007?

4. What would be the most appropriate way to display data of US population from 1900 to 2000?

Use the graph of shoppers ages to answer 5 and 6.
5. What are the range and mode of the data?
6. How many shoppers surveyed were older than 20?
