The Rosetta stone was found in __EGYPT_____. It was found by French soldiers. The Rosetta stone had writing carved in it. The same order, or proclamation, was written in three __LANGUAGES__. The three languages are an Ancient Egyptian script, Ancient Greek, and __HIEROGLYPHICS__. This helped people learn how to read hieroglyphics and Ancient Egyptian script.

Jean François Champollion studied the Rosetta Stone and deciphered hieroglyphs. He read the __GREEK__ writing and was able to make educated guesses about meaning of the hieroglyphs. Through a lot of study and work, he was able to decipher the hieroglyphic and written Egyptian languages.
